

Graduation Requirement Changes

Approved by the McBain Board of Education

Beginning with 2010-11 School Year

Computers and Senior Project will be elective classes offered to all high school students. Students will be encouraged, but not required, to complete these two classes to graduate from McBain High School.

The required number of electives to graduate is now (8). The Michigan Merit Curriculum will still remain rigorous with (16), plus our other district requirements still include: ACT Prep (.5), Freshman Focus (.5), and Speech (.5). The total required number of credits to graduate from McBain High School will remain the same: 9th/10th graders need 25.5 credits and 11th/12th graders need 25 credits.
