

## McBain Rural Agricultural School

107 East Maple Street  
McBain, MI 49657

McBain Rambler Family,

I hope this communication finds you and your family well. The district would like to thank those of you who participated in our school online readiness survey, as the feedback was very informative. As you know, our mandated school closure is in effect through April 13. Our teachers have been able to provide resources and learning enrichment activities for students over this challenging school closure. If we are notified by the State that the school closure will be extended beyond the April 13th date, we will utilize the data from the survey to distribute the needed technology devices to you. We are working closely with the Michigan Department of Education and Legislators to get the most updated information on school closure and answers to the many questions still looming in regards to educating our youth. As school leaders, we are being asked to be patient and we ask the same of you. McBain Rural Agricultural School District and the McBain Community are comprised of strong and dedicated people, we will get through this challenging time together. From my family to yours, stay healthy and strong.

If you need anything or know of anyone who does, please feel free to contact me at [steve.prissel@mcbain.org](mailto:steve.prissel@mcbain.org).

Yours in Education,

Stephen R. Prissel, Ph.D.  
Superintendent  
McBain Rural Agricultural School District
